

A sunset over a port with cranes and a ship. The sun is low on the horizon, casting a golden glow over the water and the silhouettes of the port infrastructure. The sky is a mix of orange, yellow, and blue. The water reflects the light from the sun. In the foreground, the silhouettes of cranes and a ship are visible against the bright sky. The overall scene is a busy port at dusk.

Digitalization & the future of Freight Forwarding

MARKET SITUATION

cargofive

End customers need real-time information and freight forwarders need to ensure they can provide visibility and find the most efficient way to move cargo from point a to point b.

Visibility regarding
rate fluctuation

Main challenges

1 - High rate fluctuation

2 - Lack of standardization and multiple data sources

3 - Lack of Data Integration

\$989

\$700

\$789

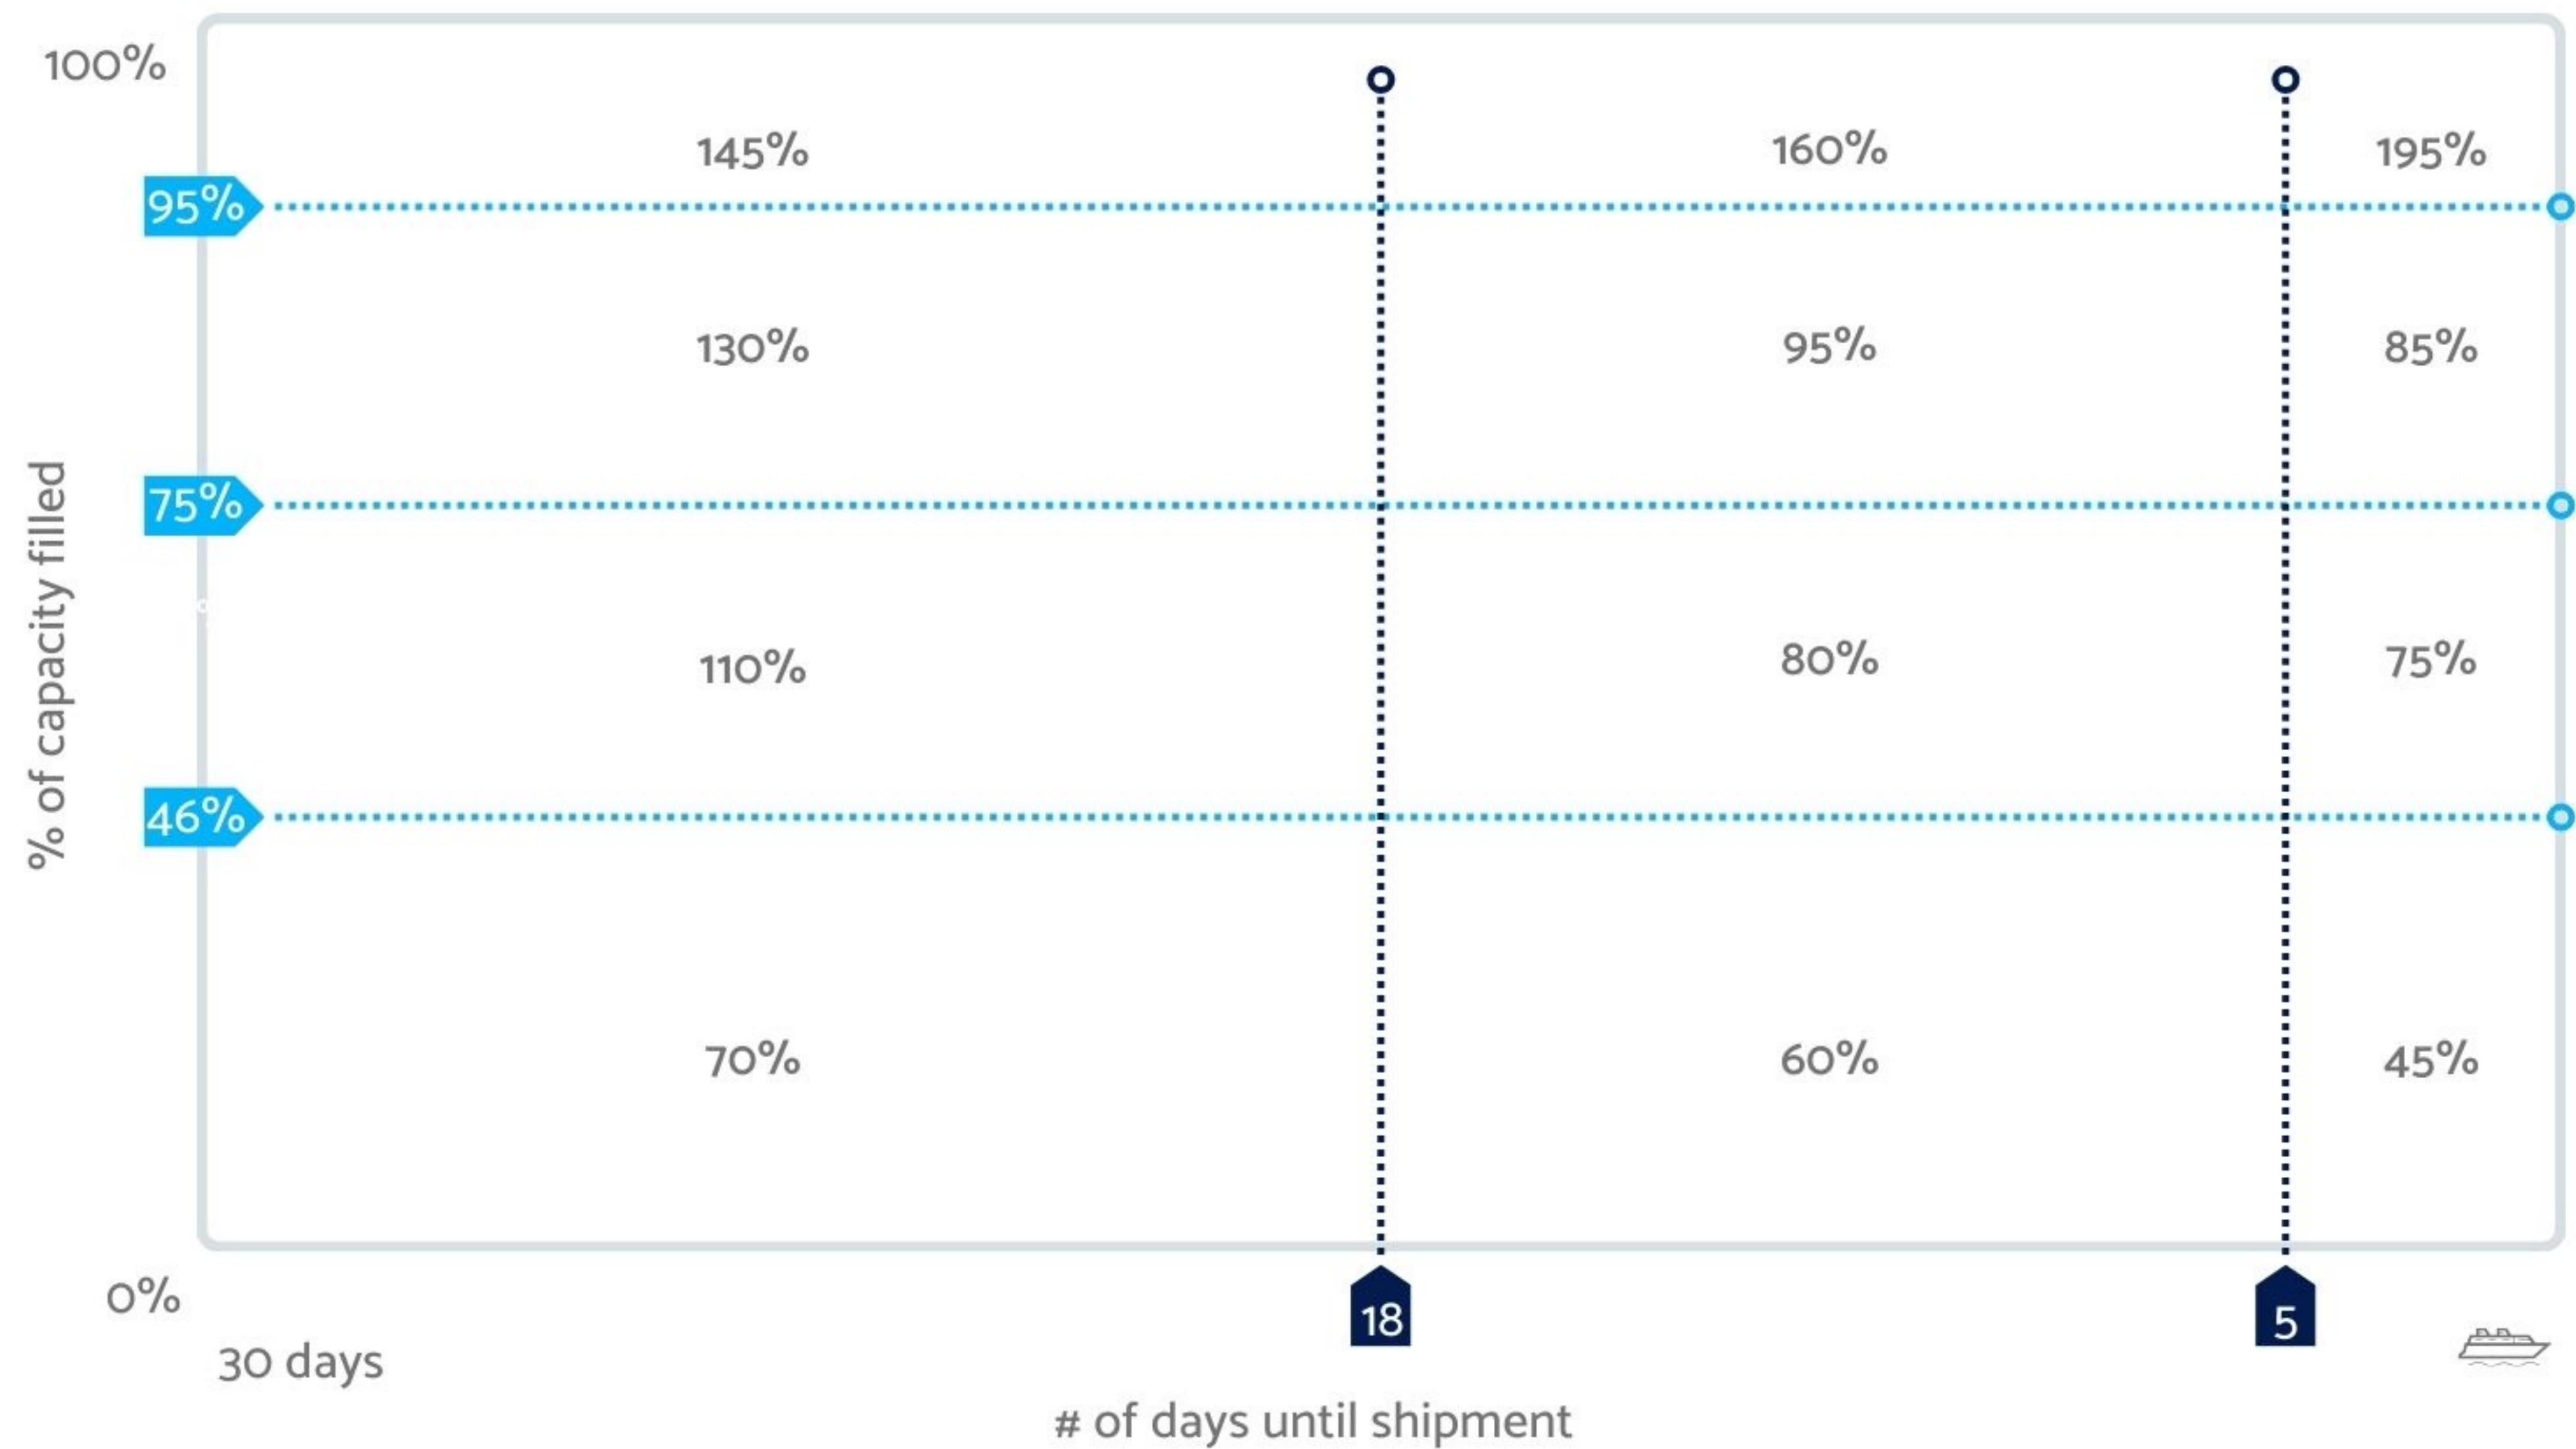

\$990

\$655

\$875

Dynamic pricing

By the time a freight forwarder prepares a quotation, the rate is already obsolete

Lack of standardization and multiple data sources
